CAMI GROUP, ITALIAN EXCELLENCE FOR INDUSTRY

HISTORICAL CRAFTSMANSHIP
EMBRACES INNOVATION
TO CREATE THE FUTURE TOGETHER.

OUR FIRST FIFTY YEARS

**IN 2021 CAMI GROUP CELEBRATED
THE 50TH ANNIVERSARY
OF ITS FOUNDATION**

"Ours is an all-Italian story of tradition, ideas, know-how and values. It is the fruit of an intuition pursued with passion and tenacious dedication. An intuition so strong that it crossed generations – very different historical and economic eras. This story today, we can proudly say, is a source of great satisfaction for all of us. CAMI turns half a century old. And like all great business stories it started small, in 1971, thanks to the sacrifices of our family and the foresight of our father, Sergio. The 50 years that have brought us this far and that make us look to the future with confidence are due not only to the success of his human and entrepreneurial story, but also to his commitment to always invest in innovation and new technologies, to his continuous creation of extraordinary relationships based on esteem with the entire market. We have taken his lead and want to lead CAMI into the next 50 years of innovation. The road is shaped by the future itself, we will walk it together with you."

Franco, Giorgio and Paolo Maritan

CAMI GROUP BECOMES THE ONE-STOP PARTNER FOR ALL YOUR INDUSTRIAL PROJECTS.

CAMI GROUP TRIPLES ITS COMMITMENT

THE EVOLUTION OF CAMI GROUP: COMPLETE SOLUTIONS IN HYDRAULICS & INDUSTRIAL AUTOMATION

Since our founding, we at CAMI have been leading contributors to the hydraulics industry by bringing our Italian and artisanal know-how to the market. In over fifty years of history, we have earned a high reputation as a company specializing in the repair, maintenance and sale of hydraulic pumps and motors. In other words, we are a point of reference in the national territory and for many productive realities. With the goal of providing complete and fast solutions, the CAMI Group has been structured into two internal divisions to offer an all-round service in hydraulics: CAMI Service and CAMI Solution. But the future, of course, never stops. Technological evolution is setting the pace, and companies need ever-evolving partners to deal with sudden, innovative and tailored changes. Hence, in 2025 we welcomed a third division into the Group, specializing in automation and electrification for industrial systems, namely CAMI Automation. Our choice to be more competitive and complete than ever before.

It is the **division specializing in repair, maintenance and sales of hydraulic pumps and motors**. This is our historic core business, the one for which we have always been recognized and appreciated. Through our Service, we are a **concrete and reliable reference point in the industry**.

The **technical heart of the company**. This division specializes in the **design and manufacture of hydraulic systems**, both for **revamping and customization of new interconnected systems**. **It is the CAMI tradition that evolves into innovation**.

CAMI's **new division**, created to integrate our know-how with automation. With the **strategic support of Bosch Rexroth**, CAMI Automation provides innovative solutions for direct repair and design of automated industrial plants and processes.

FOR HYDRAULICS

CAMI SOLUTION: IOT STUDY AND DESIGN OF INTEGRATED HYDRAULIC SYSTEMS

Technological progress demands more advanced, high-performance, and seamlessly integrated systems. With the awareness of having to interpret these innovations in the best possible way, in 2020 we set up **CAMI Solution**, the division of CAMI Group specializing in **customized design of new hydraulic systems and revamping of existing ones.**

A strategic and competitive choice: CAMI Solution provides highly specialized technical assistance and consultancy **in the hydraulics sector**, focusing on **IoT, process digitalization, efficiency and energy saving.**

CAMI SERVICE: TRADITION AND MECHANICAL CRAFTSMANSHIP MADE IN ITALY

For us, **CAMI Service** represents more than half a century of experience in the repair and overhaul of hydraulic pumps and motors for the industrial and mobile sectors, from earth moving to construction and material handling machinery.

Ours is a history of excellence in hydraulics.

With our Service, we elevate it even further – providing direct system repairs, replacing original components, and even reconstructing discontinued parts. And if the damage cannot be repaired, we supply alternative units from the world's leading brands of hydraulic components, including **Bosch-Rexroth, Moog, Parker and Linde.** **We do all this to ensure the hydraulic unit's operational continuity in the shortest possible time.**

FOR INDUSTRIAL AUTOMATION

CAMI AUTOMATION: A ONE-STOP PARTNER FOR INDUSTRIAL AUTOMATION AND ELECTRIFICATION

CAMI Automation was founded in 2025 to assist companies in the evolution of industrial automation, combining experience and innovation for automation solutions. Our goal is to make plants more efficient, connected and accurate, **optimizing production processes and improving business performance.** Integrating automation into existing plants is now a strategic choice to increase productivity and efficiency. Our team of experts **offers customized advice and design**, developing solutions that improve operability, reduce energy consumption and optimize production times.

THE INDUSTRY LEADER AS INNOVATION PARTNER: CAMI AND BOSCH REXROTH

Thanks to a partnership with **Bosch Rexroth**, the world leader in industrial automation and mobile machinery handling technology, we provide state-of-the-art solutions for the intelligent control of systems and the upgrading of systems with the latest technology. But that's not all: this partnership allows us to ensure **a direct Service and Repair protocol** with the parent company. A fast and intermediary-free channel to give our customers the benefit of a high-quality, reliable and smooth service. **This is an approach designed to provide our customers with the best possible technology and support, aiming to modernize their plants while enhancing reliability, performance, and operational efficiency.**

1971: THE BEGINNING OF OUR STORY

CAMI (CENTRO ASSISTENZA MACCHINE INDUSTRIALI MEANING CENTER FOR INDUSTRIAL MACHINE ASSISTANCE) FOUNDED IN 1971 IN RUBANO, A PROVINCE OF PADUA, BEGAN SPECIALISING IN THE REPAIR AND SALE OF HYDRAULIC PUMPS AND MOTORS. AND THAT WAS JUST THE BEGINNING.

Our story is first and foremost that of its founder, **Sergio Maritan**, who in the early 1970s with foresight and entrepreneurial intuition succeeded in expanding the company into the national market. CAMI was soon appreciated for its craftsmanship combined with **technical know-how**, which was already state-of-the-art for its time. In a short time, Maritan managed to lay the foundations for the company's exponential growth in Italy and abroad: it invested more and more in modern, environmentally friendly technologies and equipment, and staked everything on **the professional and human value** of its employees. This evolution is taken up and continued by the second Maritan generation, which broadens **CAMI** ambitions and areas of operation, making it a **dynamic and flexible group**, capable of offering a **qualified and** impeccable service to industry worldwide.

- 1971** — SERGIO MARITAN FOUNDS CAMI
- 1980** — SECOND OPERATIONAL UNIT OPENS
- 1980s
1990s** — [GIORGIO, FRANCO AND PAOLO MARITAN SET UP A PARTNERSHIP
- 1995** — CAMI RECEIVES ISO 9001 CERTIFICATION
- 1998** — CAMI.IT ONLINE FOR THE FIRST TIME
- 2000** — NEW TEST BENCH WITH A POWER OUTPUT OF 770 KW
- 2005
2007** — COMPANY ACQUIRES NEW AUTOMATED WAREHOUSES
- 2014** — CAMI BECOMES AUTHORIZED MOOG DISTRIBUTOR
- 2018** — CAMI BECOMES BOSCH REXROTH CERTIFIED EXCELLENCE PARTNER
- 2020** — CAMI SERVICE AND CAMI SOLUTION ARE LAUNCHED
- 2021** — CAMI OBTAINS CERTIFICATION AS PARKER PUMP SERVICE CENTER
- 2023** — CAMI SOLUTION RECEIVES CERTIFICATION ISO 9001
HÄGGLUNDS SALES AND REPAIR COOPERATION BEGINS
CAMI BECOMES AN OFFICIAL ASHCROFT DISTRIBUTOR (PADUA AND PROVINCE)
- 2025** — CAMI AUTOMATION IS LAUNCHED

A PROMISE OF VALUE

OUR MISSION AND OUR VISION

What we do every day has one great goal: **to always - and to the best of our ability - respond to our customers' needs.** Those who turn to us know they can count **on one of the longest-running companies in the hydraulics industry in Italy** and thus on experience polished over time. **To honor the trust placed in us, we have conceived our three divisions: CAMI Service, CAMI Solution, and CAMI Automation.** These will provide an unprecedented level of comprehensive and state-of-the-art service across all industries. We are entering the era of IoT and Integrated Industry. Here passion, craftsmanship and attention to detail are transformed into power, technology and efficiency for innovative industrial plants. At CAMI, our in-house expertise allows us to build the future of both our company and the industry. We achieve this by integrating custom system design, implementation, and digital diagnostic development directly into our processes. **Because the best way to predict the future is to create it.**

THE FUTURE PUTS DOWN ROOTS

SOWING THE SEEDS OF TOMORROW

Without our people, we would just be a company.

It is their expertise, professionalism, collaborative spirit, and ongoing dedication that make CAMI a united and cohesive group. When you share the same values, you create strong relationships and overcome any challenge. **We believe in human value** as the engine that moves our present **and especially our future. That is why we constantly support it** by encouraging training and sharing culture, occupational health and safety and creating a true sense of generational belonging.

We bring sustainable business to life.

Our growth cannot be separated from that of the land and planet in which we live. Environmental protection and energy conservation are the major values we embrace every day in business organizational development. Many of our control processes are dedicated to **containing consumption** and **preventing pollution**; with the same experience and attention, we offer our customers solutions capable of optimizing waste and impact on the environment. A commitment aligned with our company's history and our vision of the world.

SERVICES, CERTIFICATIONS AND PARTNERS

THE TRUE ESSENCE OF QUALITY AT CAMI

To be competitive, our company's history is not enough. At CAMI, we have upheld high standards of customer service, efficiency, and meticulous internal organization for years, thanks to a company policy built on clear, decisive actions.

Since 1995, we have implemented a **DNV-GL ISO 9001** certified **Quality Management System** for the **overhaul and marketing of hydraulic drive components** for industry and shipbuilding.

In addition, we produce product dossiers and product documentation files based on customer specification, we provide product compliance with applicable current regulations (e.g. Declaration of Quasi Machine Incorporation), and we ensure certifications on Materials.

Since 2023, Cami Solution has also been ISO 9001 DNV certified.

OUR PARTNERS, WITNESSES TO OUR RELIABILITY

OUR LONG HISTORY AND THE VALUES WE TRANSMIT TO THE MARKET HAVE ENABLED US TO NETWORK WITH IMPORTANT GLOBAL SUPPLIERS, WHO HAVE BECOME ESSENTIAL PARTNERS IN MEETING COMMON CHALLENGES. AND HERE'S WHO THEY ARE.

BOSCH-REXROTH

CAMI is a **Service Partner** of the **Bosch Rexroth** brand, the world leader in hydraulic components and systems for industrial and mobile applications. In 2018 we were awarded the **Certified Excellence Partner Service**, an acknowledgement of absolute value for competent advice, after-sales support and above all for the **quality of repair on Bosch Rexroth pumps and motors** to the same **standards of excellence** as the parent company.

HÄGGLUNDS | BOSCH REXROTH

Partnership with Bosch Rexroth expands by adding cooperation for the sale and repair of products of the prestigious **Häggglunds** brand. Radial piston motors offer a powerful range of drives, which are used in industrial, marine and mobile applications worldwide often in the form of drive solutions.

MOOG

CAMI is an **Authorized Distributor** of **Moog** products, a world-leading supplier of high-performance motion control solutions specializing in the design, manufacture and marketing of innovative solutions for industrial automation. In addition, we are also repairers for **RKPII pumps**.

PARKER

CAMI is a recognized **Parker Pump Service Center and Authorized Dealer** for repairs and service on Parker products. This is a relation that guarantees the customer efficiency and precision for his needs, in all respects.

LINDE

Our partnership with Linde Hydraulics as a **Service and Sales Partner** allows us to work together with an important technology partner for the entire world of plant engineering and construction, in order to offer state-of-the-art solutions.

KRAL

Together with Kral, a company that develops and produces screw pumps and flow measurement technology, CAMI offers customers the best option available on the market according to their specific requirements. CAMI is also a **repairer and dealer of Kral screw pumps**.

ASHCROFT

The distributed product portfolio is enriched with the world's most reliable pressure and temperature measuring instruments, as CAMI is the official distributor of the **Ashcroft** brand for Padua and its province.
